ADRIATIC FAIR OF BUDVA

The Adriatic Fair is located in Budva, the tourist and business centre of Montenegro. Due to its location, right next to the Slovak coast, the most famous beach on the Montenegrin coast, in the very centre of the city, under the palm trees, it provides a unique atmosphere for conducting business and fair activities.

For its 50 and more years of existence, the Adriatic Fair has become a gathering place for the most successful businessmen and collectives, a place for the presentation of the latest achievements, innovations, and important business contacts. A place where, from one event to another, a place is sought after, it achieves record visits and sales of many products.

Today, the Adriatic Fair organizes 15 specialized fair events.

A large number of foreign business delegations, the presence of renowned global companies, as well as media coverage, make the Adriatic Fair the business gateway of Montenegro.

E: info@albesol.al

ALBUS

The factory began its production in 1871, as a small chemical plant narrowly specialized in the production of soap (toilet, laundry, glycerin). It acquired its name ALBUS in 1923, these days already producing 180 wagons of soap for the domestic market and export. In 1961, Albus introduced serious innovation – industrial production of liquid dishwashing detergent, and fabric softener several years later. In those days, ALBUS cooperated with well-known European companies: Yves Rocher (France), Boldoot (Amsterdam) etc. The portfolio expanded – counting fabric care, household care, cosmetics, etc. In 1997, Albus was the first detergent producer that gained ISO 9001 certificate. Nowadays, the factory implements highest safety standards of raw material, production process and final control. In 2005 ALBUS enhanced its market performance and developed into a modern company, as a member of Invej Holding. Constant monitoring and application of scientific improvements, for more than 150 years of knowledge and experience, are the best guarantee of quality of our products. Our mission is to make everyday life better, since proper hygiene is essential for healthy lifestyle.

ECAMPUS UNIVERSITY

eCampus University is one of the leading universities in Italy, with more than 30,000 students and a constantly expanding course offer. The main campus is located in Novedrate (Como), at the former IBM European Training Center, in a building complex immersed in lush greenery, the other campuses are distributed throughout the national territory. eCampus is organized as a traditional university with regard to the exam sessions and the degrees and qualifications it offers, though its organisational arrangements are quite different: the students will be given the possibility to follow the lectures online at any time, from their PC, or from the Mobile App, and they will be mentored by a personal tutor. The presence of the students in the university campuses is mandatory only for the exams and for the final dissertation.

The University's cutting-edge technological structure is designed to offer a VLE (Virtual Learning Environment) that uses the possibilities offered by the Internet to provide services to students (lessons, tests, teaching staff office hours, placements, internships, library services, administrative services, etc.).

The products sold are based on a selected meat and processed without added preservatives to allow you to enjoy the authentic taste: all the products found in our catalogue come from certified farms and undergo strict controls, in full compliance with dictated directives. from the current legislation on health and respect for the environment.

ERINA EXPO

In this exhibition I present my paintings of 2019-2022, but most of them have been within me to be realized recently. I have been experimenting a lot over these years to understand that I am a free and unman- aged spirit.

It helped me a lot studying at the University of Regensburg for psychology and neurology, because it gave me the opportunity to get to know myself better.

And here I am with over 80 of my recent works. In fact, they came after I won over the fears and mistrusts of myself and others. And after that, everything looks very bright and colorful like many of the colors used and combined in the paintings of this catalogue. I am very happy to feel accomplished, I have a lot of faith in myself, motivated every day to paint, to spread colors on canvas.

This feeling has made me another person. Nobody tells me anymore lazy, they do not tell me I'm not in touch with the timetables. The interest is raised to those around me, and everyone wants to see my artworks. So I decided to publish them in this exhibition. I thank you for reading me and seeing my artworks.

GEBI

Gebi Ltd. was established in 1983. The company has been active in many fields, but all are connected to trading or the production and processing of agricultural goods. From 2004, our core business is animal feed production, which is based on high-quality agricultural materials, mainly from Serbia. We are currently the market-leading company in the country with the market share of above 30%. We export animal feed to Bosnia and Herzegovina, Montenegro, Kosovo, Bulgaria, Albania, Romania, North Macedonia and Croatia.

Currently our company employs approximately 400 people. 250 of them are located in the main production facility in Čantavir. The rest of our colleagues are on the field in different parts of Serbia and also in the neighbouring countries.

The current capacity of the feed factory is 300,000 tonnes/year, and it constantly grows.

The company also owns a grain storage capacity of 500.000 tonnes. The company has a technical background of relatively young age.

Our company is characterized by the most modern technology available today, whereas the production is completely automated and meets all applicable standards and quality system requirements. All these together provide excellent quality for the end products. In this way we meet demands of the constantly growing market.

GENER 2

Gener 2 is an award –winning Albanian based company that has established itself as the most reputable and prestigious construction, project management and engineering name in the country.

Over the last 25 years, the company has evolved into one of the largest organizations in Albania with a very large portfolio of residential and commercial construction, roads and highways, infrastructure projects, energy, retail and as of recently, media.

The company continues its expansion and is currently one of the biggest employers in the private sector in Albania. Some of its projects are well known landmarks in the country, where the most notable ones are ABA Business Center and Toptani Shopping Center, as well as the construction of access roads and bridges for the Trans-Adriatic Pipeline.

The company has set high standards in the construction industry, where currently has been chosen to start the development of one of the most strategic highways in the country, a part of the Blue Corridor and also the largest residential complex in the capital city of Tirana. In early 2018, CNN International partnered with Gener 2 Group to launch A2 news channel, a CNN exclusive affiliate in Albania.

IGM MLADOST

MLADOST is one of the largest and most important manufacturers of construction materials in the region, a well-known name on the market, synonymous for quality ceramic tiles and blocks for masonry and mezzanine constructions, which thanks to their quality, have found their way to satisfied users in many foreign markets in Bulgaria, Romania, Albania, Germany, Macedonia, Russia, Israel...etc.

The production capacities of the Mladost company are distributed in 5 factories in the south of Serbia:

- Factory in Mala Plana / production of blocks
- Factory in Vlasotince / production of blocks
- Factory in Stalac / production of blocks
- Factory in Leskovac / tile production (ECO series)
- The newest factory in Leskovac / tile production (PRO series)

In the period from 2007 until today, IGM MLADOST records constant growth, development and expansion, during which purchases and construction of new factories were carried out, with large investments in the modernization of equipment and technology with an increase in capacity, range and quality of products.

With the last investment in 2021, the investment cycle was crowned with the construction and commissioning of a new factory, which is one of the most modern in Europe. This factory produces "PRO" roof tiles in the highest (premium) quality.

Thanks to the latest and most modern technology implemented in this factory, PRO Tiles have a large format (10 pcs/m²), perfect lines (pressed with gypsum molds) and geometry (each tile is baked – fired separately in the so-called “H” cassettes) and significantly improved technical technology characteristics. With such high performance,

Mladost-PRO roof tiles can now be found in many of the most demanding markets across Europe.”

KORÇË CITY HALL / BASHKIA KORÇËS

BASHKIA KORÇË

Korça, the cradle of culture and education, the city of carnivals and serenades, the city of events, it is impossible to give to the visitors an unforgettable time.

Korça, the city of the stone streets and two-storey dwellings that create an attractive traditional urban style. The houses with exterior railing and outdoor stone stairs, located mainly on both sides of the boulevard "Republika", the most beautiful kilometre in Albania, make this city unique from the architectural aspect.

Korça, where the tradition and the modernity are intertwined so naturally and where citizen's awareness of the importance of tourism as a key factor in the economic development of the city, is growing day by day, investments in infrastructure and tourist services are moving at a faster pace

There is so much to say about Korca. In order to explore its charm, sweetness, dynamism, and the real rhythm of the city, you have to visit it.

LA PELLE ITALIA

The history of LA PELLE S.R.L. started in 2015 in Civitanova, a land with an ancient tradition of leather processing. The business activity consists of trading leather and accessories for various types of women and men shoes. From yellow to black, from green to brown, each item is designed to match any taste and leave a distinctive mark of style and charisma on the observer.

The sale is aimed at shoemakers, artisans, shoe shops, companies and professionals in the footwear sector. Small craftsmen, hobbyists or simple enthusiasts will find everything they need for handmade works, for leather goods in general.

The selection of materials is done by carefully studying the smallest details and choosing the best quality to help create unique creations. The wide range of fine leather accessories and unique pieces they make available are also accompanied by favourable prices; this prompts them to always position themselves one step ahead of the competition.

We believe in added value within the corporate structure, therefore we aim to achieve 100% Made in Italy by supporting our work with the best Italian craftsmen.

MLEKARA ŠABAC

Mlekara Šabac is one of the leading dairies in Serbia, established back in 1931. The unique taste of well-known brands, like Sirko and A la Kajmak, is based on the high-quality raw milk, from about 700 farms, exclusively from Serbia, with which the cooperation was nurtured for decades. Serbian Chamber of Commerce has awarded the “Čuvarkuća” trademark to Mlekara Šabac, for as many as eight of its brands in the category of top-quality domestic products, made entirely of domestic raw materials and with the highest production standards.

Products:

- Fermented portfolio (Yoghurts, Sour milk, Sour cream, Milk whey, Mileram)
- Cheese spreads (Sirko classic, Sirko with flavours, A la Kajmak classic and A la Krem)
- Cheese (Mediterranean white cheese 45% milk fat, “Greek” type), Low fat fresh cheese, Sirko cheese
- UHT milk (sterilized milk)
- UHT products (Poppy chocolate milk)

Production capacities: Mlekara Šabac dairy processes around 50 million litres of domestic farms milk per year and distributes more than 20 thousand tons of finished products.

Export markets: Mlekara Šabac export around 70% of its products. Export markets are Russia and Customs Union, Europe as well as to the Ex-YU countries (Adriatic region) and USA.

Standards and certificates: Mlekara Šabac has the highest international certificates: IFS Food, FSSC 22000, HACCP, HALAL, ISO 9001:2015, which guarantee top quality and safety of its products, regardless of whether they are intended for domestic or numerous foreign markets. The company also has ISO system certificates, like ISO 14001:2015, ISO 45001:2018 and ISO 50001:2018, which show the commitment of Mlekara Šabac to environmental protection, efficient energy management and protection of health and safety of employees.

A La Kajmak spread 70%mm

A La Kajmak, a delicious spread is made of top-quality milk from local farms using the most modern technological process.

Cheese spread Sirko 60%mm

Traditional cheese spread with a soft, creamy consistency and smooth texture, irresistibly tasty, made from high-quality milk from local farms. Sirko is made from completely natural ingredients, free of preservatives, artificial colors and other additives.

Full-fat soft cheese Mediteraneo 45% mm

Mediteraneo – full fat, soft cheese, will enrich any dish and transform a salad into a supreme gourmet delight.

MY SPOON

My Spoon is a company that produces edible cutlery. The headquarters of the company is in Banatski Karlovac. The main product of the company is an edible spoon. Reducing the use of single-use plastics and reducing plastic waste represents the social mission of the brand. The production concept is based on the use of absolutely natural ingredients, on an automated production facility and on the creation of affordable and healthy products that are positioned as a healthy alternative.

The product is an edible spoon. After mixing the hot drink, a spoon can be eaten like a biscuit. The spoon will not dissolve in the drink, nor will it release substances into the drink. It has a pleasant taste and is produced in 2 variants, original and cinnamon. In addition to mixing, the spoon can be used to consume ice cream, creams, honey and other sweet spreads. The spoon contains 9% of natural honey and it is made from fresh eggs. It does not contain artificial additives.

Production capacity is up to 100,000 units per 24-hour period.

We export to the markets of Slovenia, Sweden, Bosnia and Herzegovina, France, Hungary, Romania, and the United States of America.

Production is carried out in accordance with the rules for health and food safety Eurofins "IFS".

PELGLOVES SRLS

PELGLOVES is an artisanal company. The workers come from entrepreneurial and artisan realities which have allowed them to acquire great professionalism, full knowledge of the techniques, mastery of the workmanship and in-depth knowledge of styles and trends in the field of accessories and fashion.

The company has always been oriented towards the improvement of product quality. Elegant and refined, PELGLOVES gloves are works of art handmade by expert craftsmen who have been making precious accessories every day for years, following one of the most fascinating Neapolitan artisan traditions: the art of glove making.

Each leather glove is made after a long and meticulous precision work divided into 25 phases, from the selection of materials to the stitching, which is followed by an accurate quality control, in six steps, in order to pursue the imperfect perfection.

The materials used and the raw materials used are of the highest quality and of certified origin.

PINZIMONIO GROUP

The Pinzimonio brand began its activity in 2008 from the dream of Vittorio Pagano, who first decided to enter the scenario of territorial banquets with a very specific idea of service and quality. Since the beginning, Pinzimonio has worked with originality to create ceremonial banquets, despite the fact that initially the size of the company was no bigger than just family management. The quality of the products and the organization lead the company to rapid growth, both in commissions and consequently in the number of personnel. As early as 2012, the company branched out, adding to its catering service a continuous catering service, offering companies and schools daily fresh meals, prepared with the latest cooling and regeneration techniques. In its current corporate form, it was then established in 2013.

An operational sector of the company is that represented by "Pinzimonio Banqueting" which deals with the conception, realization and preparation of ceremonies, weddings, conferences, and events of various types. It mainly offers a catering service for individuals and companies engaged in the preparation of high-end dishes. "Pinzimonio Banqueting" follows and guides the client throughout the process of organizing and setting up locations for events of any kind, from company presentations to weddings, from musical and design events to graduation parties.

During the last years, a new operational sector has been added, "Pinzimonio Food&Service (PFS)" which takes care of the supply of ready meals with over 500 m² of cooking center. PFS specializes in the supply of ready meals for hotels, small tourist facilities without the use of a kitchen, public canteens and companies, all based on the preparation of semi-ready and pre-cooked meals intended for transport and consumption. in external locations and structures.

PFS signature products have the taste of the best gastronomic traditions. Fresh produce is delivered daily to the factory from trusted local and regional suppliers.

Today the Pinzimonio Group srl wants to start expanding its presence also in the neighboring geographical areas, which allow to export the quality of the products produced in Italy and its operational capacity in the preparation of a ready-made kitchen, which can also be appreciated abroad country.

POBEDA

The company “Pobeda” DOO started its work back in 1962, as a facility that dealt with hospitality and tourism. It is located on the southern branch of Corridor 10 in the beautiful Grdelica Gorge, 300 km from Belgrade and 127 km from Skopje. The motel, as a three-star facility, offers accommodation capacity. The motel has 51 modern equipped rooms with 123 beds with luxurious bathrooms, air conditioning, cable television and Wi-Fi. Guests have at their disposal 3 restaurants with a spacious terrace, a conference hall and a hall for celebrations with a capacity of up to 500 guests with a wide selection of food and drinks. During the pandemic, there was a reduction in the volume of work, in order not to interrupt the long-term work and effort of the motel and leave the workers on the street, we started the production of domestic products on the traditional way. After two years of effort and work, we have achieved great success where our products are sold in large retail chains and exported to Germany, and the number of employees is growing. It is the production of local traditional specialties. It is about the production of HOMEMADE AJVAR, HOT PEPPERS AND SAUER CABBAGE

Products: Domaći Ajvar (Homemade Ajvar), Ljute Papričice (Hot peppers) , Kiseo kupus (sour cabbage)

Production capacities: 25.000 piece

Export markets: Serbia, Germany.

S. & G. TECH

S. & G. TECH srl is a company specialized in business consultancy, with particular attention to business innovation, financial flow planning and cash management and correct risk control through the necessary insurance tools.

The logic of S. & G. TECH srl for its "business proposal" is to propose and support the implementation among its customers of strategies and practices to accelerate corporate and digital transformation and prepare it for the future by constantly monitoring two elements that can be highly critical for the company: financial management and risk control.

The company's consistency remains focused on the objectives to keep its customers competitive and innovate processes to increase operational efficiency and create better experiences for customers and employees. At the same time, it is the task of S. & G. TECH srl to evaluate new business models and new offers that allow client companies to be competitive in the interconnected, digital and increasingly complex ecosystems of the future.

S. & G. TECH srl makes use of the vast historical archive of experiences that is made available to customers and which tells many years of history and experience and which represents a source of inspiration for building new solutions looking to the future.

S. & G. TECH srl works exactly on these aspects: starting from the analysis of the story that the client company wants to propose, it studies the market trends; then researches and designs new ideas, proposals and solutions and gradually composes, together with the customer, the right strategy for the proposal.

Tehnogama

Tehnogama d.o.o. was founded in 2008. in Simanovci and has based its development from the beginning, until today, on the constant improvement of all business segments.

Tehnogama d.o.o. since May 2016. officially operates in Montenegro as a business entity – Tehnogama d.o.o. Niksic, with headquarters in Niksic, Bul. July 13, bb.

The company's activities include sales, servicing and maintenance of compressors and equipment for the treatment of compressed air.

The sales program consists of industrial screw air compressors, piston air compressors and spare compressor heads, compressed air filtration, compressed air dryers, manual, timed and automatic intelligent condensate separators from the compressed air system, oil/water condensate separators, industrial equipment for high pressure. Then cooling chillers, ie chillers for air conditioning and chillers for industrial cooling, air dryers and material such as preparation groups, pressure regulators, hoses, quick couplings, manometers, safety valves and material for distribution of compressed air from aluminum pipes.

We complemented the offer of equipment with pneumatic connecting material and fittings, as well as a compressed air distribution system made of calibrated aluminum, with a unique push-in connection system, manufactured by Aignep, from Italy, and thus provided clients with everything needed for the complete equipment of the compressed air station.

The company currently consists of the commercial and service sectors, as well as the general affairs department. The service sector is organized to provide our customers with service and technical support 24/7. An impressive stock of original and replacement spare parts, as well as replacement equipment, which we give to clients in order to carry out their work smoothly, and in case of major breakdowns or longer delivery times, complete the feeling of security for clients.

Products: Screw compressors, nitrogen generators, chillers, dryers, filters for compressed air, piston compressors, tanks, aluminium installations for compressed air-nitrogen-vacuum and corresponding spare parts of the mentioned equipment.

Production capacities: over 1,000,000.00 pcs annually

Export markets: Albania, Montenegro, Bosnia and Herzegovina, Croatia, Romania, Macedonia, Hungary, Bulgaria

Standards and certifications: ISO 9001:2015, 14001:2015, 45001:2018

THIMI MITKO PUBLIC LIBRARY

THE MISSION OF “THIMI MITKO” PUBLIC LIBRARY IS TO INSPIRE LONG LIFE LEARNING SO THAT OUR COMMUNITY CAN GROW STRONGER.

1- WE INSPIRE long life learning by assuring a strong basis on adults’ education programs and by cultivating children’s reading habits; by providing collections and special spaces in the library.

2- WE STEP AHEAD in knowledge by offering open collections and free access to EIFL (Electronic Information for Libraries), Audio Books and SchoolME (digitalization in education).

3- WE EMPOWER our community by promoting our programs and participation in contemporary society.

4- WE ARE THE PRESERVATION CENTER OF OUR COMMUNITY’S CULTURE. We promote different cultural activities, awareness of cultural heritage, scientific achievements and innovations.

LIBRARIES ARE THE IRREPLACEABLE DEPOSITORS OF HUMAN MEMORY.

Every nation has made its history by being a true witness of the history of all generations.

History always represents the past of a country and besides its nature, it carries great values for the upcoming generations. This history has to be written in books in order to be inherited. Then, books should be preserved as a witness of the attempts to answer to the past. The human Genius created Libraries, so that History remains written and alive. For many years now, this library is named “ThimiMitko”. It was established in July 1921 under the care of “Vatra” Federation. In 1930 the library was transferred to a new building for which invested the philanthropist Mr. ThomaTurtulli.

Mail: info@smartskin.al

Smart Skin është kompania e re e cila ka sjellë risitë më të fundit revolucionare në tregun shqiptar, në fushën e Estetikës, si degë e Mjekësisë Rigjeneruese të Lëkurës, si për femra ashtu edhe për meshkuj të të gjitha moshave. Ky rezultat u arrit falë punës serioze dhe këmbëngulëse të Kërkuesve dhe Zhvilluesve të Laboratorëve Prestigjiozë Italianë, të cilët, duke kombinuar përdorimin e pajisjeve teknologjikut inovative me kërkimin shkencor laboratorik, të bazuar ekskluzivisht në produkte bimore dhe bio-natyrore, kanë bërë të mundur prezantimin e ketyre produkteve ekselente. Në këtë mënyrë është bërë i mundur krijimi i kremrave të shkëlqyera të të gjitha kohërave, të cilat kujdesin njëkohësisht Ushqyerjen, Hidratimin dhe Mirëmbajtjen e lëkurës të re, për një kohë shumë të gjatë, duke ndihmuar në Rigjenerimin e saj dhe mbi të gjitha, Metodën Revolucionare të Aplikimit të tyre. pa i prekur me duar. Smart Skin beson se bukuria e shëndetshme, PA GJILPËRA dhe PA BISTURI, është një pjesë e domosdoshme për secilin prej nesh, pavarësisht nga gjinia dhe mosha. Smart Skin është BRAND-i ku Shkenca, Teknologjia dhe Biologjia takohen me Bukurinë Njerëzore!

Smart Skin is the new company that has brought the latest revolutionary innovations to the Albanian market, to the field of Aesthetics, as a branch of Skin Regenerative Medicine, for both women and men of all ages. This result was achieved thanks to the serious and tenacious work of Researchers and Developers of Prestigious Italian Laboratories who, by combining the use of technologically innovative equipment with laboratory scientific research, based exclusively on herbal and bio-natural products, have made it possible to present these cutting-edge products. In this way it was possible to create the excellent creams of all time, which TREAT simultaneously the Nutrition, Hydration and Maintenance of young skin, for as long as possible, helping its regeneration and, above all, the Revolutionary Method of their application, without touching them with your hands. Smart Skin believes that healthy beauty, WITHOUT FIT and SCALPEL, is a necessary part for each of us, regardless of gender and age. Smart Skin is the BRAND where Science, Technology and Biology meet Human Beauty!

Kaos Fashion Shpk, është kompani promovimi dhe internacionalizimi në tregun Ballkanas dhe ndërkombëtar të shumë firmave të mirënjohura multisektoriale italiane dhe ESKLUZIVISHT të promovimit të firmës lluksoze të modes

F3 (Freefromfur).

Veshjet dhe aksesoret shumë femerore të firmës F3, në materiale 100% ekologjike (pjesë integrale e shtetnibilitetit ekologjik ambienta) marrin jetë, pas eksperiences 70 vjeçare si prodhues të pelices ekologjike, një nga më cilësoret, me një klientelë “Haute Couture” në mbare botën.

Firma e modes së lartë F3 është rigorozisht nga Firenze, 100% Made in Italy, duke filluar nga prodhimi i pelhurave dhe peliceve, deri tek pallto, xhaketa, veshje të ndryshme, kapele, shalle, jaka e propozime pafund, të personalizuar sipas kërkesës së klientit.

Linja ne guverta, pleide e jasteke, eshte propozuar dhe personalizuar nga disegn interioresh profesioniste ne sektorin luxury, per arredime vilash, dimorash dhe hotelesh lluksoze.

Showroom “Kaos Fashion” Shpk, promovuese e firmes F3, JU MIREPRET ne nje ambjent elitar ne Zonen Bllok.

Kaos Fashion Shpk, eshte kompani promovimi dhe internacionalizimi ne tregun Ballkanas e nderkombetar te shume firmave te mirenjohura multisektoriale italiane dhe ESKLUZIVISHT te promovimit te firmes lluksoze te modes F3 (Freefromfur).

Veshjet dhe aksesoret shume femerore te firmes F3, ne materiale 100% ekologjike (pjese integrale e sostenibilitetit ekologjik ambjental) marrin jete, pas eksperiences 70 vjecare si prodhues te pelices ekologjike, nje nga me cilesoret, me nje klientele “ Haute Couture” ne mbare boten.

Firma e modes se larte F3 eshte rigorozisht nga Firenze, 100% Made in Italy, duke filluar nga prodhimi i pelhurave dhe peliceve, deri tek pallto, xhaketa, veshje te ndryshme, kapele, shalle, jaka e propozime pafund, te personalizuar sipas kerkeses se klientit.

Linja ne guverta, pleide e jasteke, eshte propozuar dhe personalizuar nga disegn interioresh profesioniste ne sektorin luxury, per arredime vilash, dimorash dhe hotelesh lluksoze.

Realizimi i kampionareve dhe koleksioneve me veshje dhe aksesore te shumellojshem plot ngjyra e sfumatura pafund, jane te realizuara manualisht nga artizane fiorentine me shume eksperience ne sektorin e ngjyrosjes dhe te perpunimit te ngjyrave.

Modelet e propozuara nga stiliste italiane, sjellin klienteles nje risi ne veshje dhe aksesore, plot stil dhe elegance, per nje klientele elitare.

Pelicja (gezofi) eshte i prodhuar sipas nje teknologjie, e vetmja ne bote.

Ne te vertete, pelicet tona jane nje kadife e thuruar ne tezgjah me gjatesi fijesh sipas rregjistrimit te telajeve, te ndjekura manualisht gjate cdo procesi nga mjeshter te nje artizanati pothuajse ne zhdukje.

Te kesh nje veshje o guverte te F3, do te thote te kesh cilesi, design, unicitet pa nje skadence ne kohe.

Nje veshje o aksesor F3 e heq nga garderoba vetem kur je lodhur se perdoruri, nuk mbaron kurre.

F3... Made in Italy, by Florence
çdokush do donte ta kishte □
